

OLGA FILIUSHKINA

Front End Web Developer

📍 Toronto, Ontario ✉️ olga.filiushkina@gmail.com 🌐 /Olcatsy 🌐 /olgafil 📞 647-996-5420

A web developer with over 4 years of experience specializing in UI development. I combine my interests in visual communication and technology to create innovative, user-centric solutions. With a background in science, I bring strong technical communication skills and pride myself on writing clean, modular code. Passionate about building socially responsible apps, I prioritize user experience and accessibility in every project.

SKILLS

Languages & Frameworks: React.js, Vue.js, JavaScript, TypeScript, HTML, CSS/SCSS

Testing: Jest, React Testing Library, Cypress, Mabl,

Design: Wireframing, UI Design, Figma

Web Development: REST API, GraphQL, Git / Github, A/B testing, Monorepo, Storybook, Okta/OAuth, Responsive Design, Web Accessibility

Soft Skills: Collaboration, technical communication, creative problem solving, user-centric mindset

WORK EXPERIENCE

Priceline.com – Dec 2022 - July 2024

Associate Frontend Developer

- Developed and maintained scalable UI components for the Hotels team using React.js and TypeScript, ensuring high performance and seamless user experience.
- Created 30+ A/B tests to optimize user engagement and successfully delivered new features.
- Improved accessibility score by 10% as part of the Accessibility Guild, ensuring legal compliance and enhancing user inclusivity.
- Maintained and improved unit test coverage to 95% using Jest and React Testing Library, with automated no-code integration testing via Mabl.
- Converted class-based components to React Hooks, aligning with modern standards to enhance code simplicity and maintainability.
- Contributed to a monorepo component library by delivering reusable UI components with full test coverage and Storybook documentation.
- Engaged in code reviews and pair programming to foster collaborative development, enhance code quality, and facilitate knowledge sharing among team members.
- Managed quarterly on-call rotations to deploy 20+ feature branches via CI/CD pipelines using GitHub Actions and Codefresh, while monitoring deployment health with New Relic and PagerDuty to ensure optimal application performance and reliability.
- Collaborated closely with other teams, such as Product, Design, QA, Data, and SRE to ensure alignment on goals and delivering projects on time.
- Actively participated in Agile methodology, tracking tickets on Jira and engaging in daily stand-ups, regular grooming sessions, and retrospectives to streamline project workflows.

Shopkick Inc – Apr 2021 - Dec 2022

Front End Software Developer

- Worked on rebuilding an outdated internal platform SPA and implementing new features with React
- Created wireframes for pages and components with Figma
- Communicated with stakeholders to incorporate their feedback on interface usability, design and performance
- Initiated creation of a library of reusable components to speed up development
- Increased test coverage by writing regression and unit tests
- Implemented authorization with Okta to comply with company's security protocols
- Provided code reviews to colleagues
- Wrote clear and easy-to-follow documentation to improve knowledge transfer on the team
- Followed Agile methodology with two-week sprints and daily team stand-ups

FREELANCE EXPERIENCE

Root & Seed – 2023

Freelance Frontend Developer

- Implemented several key interface features, such as Favoriting Questions and Tab Navigation using Nuxt + Vue.js
- Communicated with the product owner and the UI designer to translate provided Figma designs to code

Worm's Eye View – 2020

Freelance Web Developer

- Designed, built and hosted an interactive art piece using JS, HTML and CSS based on client's concept
- Effectively communicated technical possibilities and limitations of the project to the client

EDUCATION

Juno College of Technology

Immersive Web Development Bootcamp

University of Toronto

BSc in Cell and Molecular Biology
