

OLGA FILIUSHKINA

FRONT END WEB DEVELOPER

 Toronto, Ontario  olga.filiushkina@gmail.com  [/Olcatsy](#)  [/olgafil](#)  647-996-5420

I channel my interests in visual communication and computer technology to find creative solutions and bring my ideas to life on the web. Coming from a science background I have strong technical communication skills, and I pride myself in writing clean modular code. I aim to build socially responsible apps that put user experience and accessibility to the forefront.

SKILLS

- HTML
- CSS / SCSS
- JavaScript
- React
- Jest / react-testing-library
- Cypress
- REST APIs
- Git / Github
- D3.js

WORK EXPERIENCE

Front End Software Developer

Shopkick Inc

Apr 2021 - present

- Worked on rebuilding an outdated internal platform SPA and implementing new features with React
- Created wireframes for pages and components with Figma
- Communicated with stakeholders to incorporate their feedback on interface usability, design and performance
- Initiated creation of a library of reusable components to speed up development
- Increased test coverage by writing regression and unit tests
- Implemented authorization with Okta to comply with company's security protocols
- Provided code reviews to colleagues
- Wrote clear and easy-to-follow documentation to improve knowledge transfer on the team
- Followed Agile methodology with two-week sprints and daily team stand-ups

Freelance Web Developer

Worm's Eye View

Sep-Dec 2020

- Built and hosted an interactive art piece using JS, HTML and CSS
- Designed the UI based on client's concept
- Effectively communicated technical possibilities and limitations of the project to the client
- Ensured compatibility with all modern browsers
